All-new 2015 Chrysler 200 Sedan Charts a New Course for Mid-size Sedans, Captivating Drivers and Passengers with its Simple Elegance, an Extraordinary Driving Experience and Cool Features – at a Value Customers Will Appreciate

The 2015 Chrysler 200 sedan is all new from the ground up

- Inspired by iconic American design, the all-new 2015 Chrysler 200 delivers beautiful craftsmanship using high-quality materials, understated elegance, and is loaded with state-of-the-art technology and safety features
- 2015 Chrysler 200 is the industry's first mid-size sedan with a standard nine-speed automatic transmission, which enables expected highway fuel economy ratings of 36 miles per gallon
- The Chrysler 200 sedan's innovative available all-wheel-drive system is the first to deliver an automatic fully disconnecting rear axle, improving fuel economy by reducing parasitic loss when all-wheel drive is not needed
- Choice of two world-class engines are available: the 3.6-liter Pentastar V-6 engine produces a best-in-class 295 horsepower and 262 lb.-ft. of torque, or the standard 2.4-liter MultiAir®2 Tigershark I-4 engine produces 184 horsepower and 173 lb.-ft. of torque
- All-new 2015 Chrysler 200 features engine stop-start (ESS) on models powered by the 2.4-liter MultiAir2 Tigershark engine in the fourth quarter 2014
- The all-new 200 features state-of-the-art electronic shifting with rotary dial
- An inventive center console offers pass-through storage space for driver and passengers, covered charging station and sliding cup holders for even more storage space when needed
- 2015 Chrysler 200 offers the most available safety and security features in the segment with 60

World Class Manufacturing principles and a new, updated assembly plant set the table for a world-class vehicle – the all-new 2015 Chrysler 200

- All-new paint and body shops and improvements in the assembly process enable precision-built vehicles and reduce the energy required to build the 2015 Chrysler 200 by 22 percent compared with the outgoing model
- The all-new 2015 Chrysler 200 has a starting U.S. Manufacturer's Suggested Retail Price (MSRP) of $21,700 (excluding $995 destination)

Simple elegance, an exhilarating driving experience, state-of-the-art and easy-to-use technology and beautifully crafted, the all-new 2015 Chrysler 200 charts a new course for mid-size sedan customers who have earned a little luxury in their life, but demand value for their money.

The 2015 Chrysler 200 debuts a beautiful exterior design featuring the new "face" of the Chrysler brand – a thoughtful, exquisitely crafted interior and an exceptional driving experience, complements of a segment-first nine-speed automatic transmission and the Compact U.S.-wide (CUS-wide) chassis. With the choice of two world-class engines, an innovative all-wheel-drive system, available sport mode and paddle shifters for an engaged driving experience, and estimated highway fuel economy of 36 miles per gallon (mpg), the all-new Chrysler 200 makes the commute something drivers will look forward to.

Beginning in the fourth quarter, the 2015 Chrysler 200 models, powered by the standard 2.4-liter MultiAir2 Tigershark I-4 engine, will feature engine stop-start (ESS) technology, an emission-lowering and fuel-saving feature.

The all-new 2015 Chrysler 200 offers the most available safety features in the mid-size sedan segment, and state-of-the-art, easy-to-use technology that keeps drivers and passengers connected. With a starting U.S. Manufacturer's Suggested Retail Price (MSRP) of just $21,700 (excluding $995 destination) the all-new 2015 Chrysler 200 is a sedan that customers will be proud to own, at a value they will appreciate.

"The all-new 2015 Chrysler 200 will be the new benchmark for mid-size sedans with an exceptional driving experience, fuel economy of up to 36 mpg highway and exquisite craftsmanship," said Al Gardner, President and CEO — Chrysler Brand, Chrysler Group LLC. "The all-new Chrysler 200 lays the groundwork for the future of the Chrysler Brand with a timeless, elegant design; clever functionality; a standard nine-speed automatic transmission; a class-leading all-wheel-drive system; 60 safety and security features and a host of new technology drivers and passengers will value."

The 2015 Chrysler 200 is designed, engineered and built,

Active Military? Graduating this May?
YOU CAN *SAVE EVEN MORE!*

Retired Military Personnel are not eligible. US Military will have to provide proof of active service or proof of graduation within the next 6 months or past two years. Must also provice proof of present or future employment, sufficient income to cover payments, approved credit. Programs cannot be combined. See dealer for details. Offer ends 4/30/15.

*24 month lease. 10,000 miles per year, .15 per mile overage. In-stock units only. Must finance through TMCC. Security deposit waived with approved credit through Toyota financial services Tier 1 Plus credit. Requires $2,995 cash or trade equity and $75 dealer doc fee, tax, license, $650 acquisition fee and first payment. $350 disposition fee due at lease turn in. Includes all Toyota factory rebates. Prior sales excluded. Offers expire 04/30/15. Maintenance covers normal factory scheduled service for 2 years or 25,000 miles, whichever comes first. See Toyota dealer for details and exclusions. Valid only in the continental U.S. and Alaska. Roadside assistance does not include parts and fluids, except emergency fuel delivery. Prius Plug-in Hybrid comes with an additional year of roadside assistance, for a total of 3 years from date of first use.

Monday through Thursday 9am-9pm • Friday 9am-6pm • Saturday 9am-5pm
We are closed on Sunday so that we may enjoy time with our friends and families.

<<Chrysler 200 Continued>>
with pride, in Michigan. With a major investment of more than $1 billion, Chrysler Group's Sterling Heights (Michigan) Assembly Plant (SHAP), once slated for closure, sports an all-new paint shop using leading-edge technology, a new, fully robotic body shop and an upgraded assembly area, setting the stage for the world-class craftsmanship found in the all-new 200. Design

Inspired American design and beautifully crafted inside and out, the all-new 2015 Chrysler 200 transforms what customers expect in a mid-size sedan. The 2015 200 sedan showcases the new face of Chrysler, and incorporates timeless design cues that let the car tell the story.

Clean, expressive surfaces define the all-new 2015 Chrysler 200; it's a timeless American design based on simple elegance. The 200 sedan, with its muscular yet soulful presence, embodies a strong, sculptured exterior that drivers will want to touch and feel. The restrained design is not ornamental or full of line work instead it showcases sensual lines and fluid surfaces, which highlight the coupe-like appearance.

The all-new 2015 Chrysler 200 debuts the new "face of Chrysler." The grille and headlamps are integrated for the first time and the updated Chrysler badge has an emphasis on the wing, which is more defined. The signature light pipe or available full-LED daytime running lamps (DRL), LED fog lamps and standard LED tail lamps give the all-new Chrysler 200 a distinctive, recognizable look coming and going.

The Chrysler 200S model delivers an exclusive style – darker, more sinister – not found on other models in the lineup, or in the mid-size sedan segment. The 2015 Chrysler 200S model features gloss black trim and accent pieces rather than the standard bright trim. The exclusive design of the daylight opening (DLO) trim, the area surrounding the side windows, is gloss black – the 2015 Chrysler 200 is the only vehicle in the segment with this feature. Integrated dual exhausts are standard and the available 19-inch Hyper Black aluminum wheels complete the look. The more sinister appearance of the 2015 200S model complements the sportier driving experience the S model delivers.

The interior of the all-new 2015 Chrysler 200 sedan provides the "wow" factor. Exquisitely crafted with high-quality materials and attention to detail, the 2015 200 sedan's interior is inviting and comfortable and rewards drivers and passengers on commutes as well as longer journeys.

Using four key principles – an emotional design impact, use of high-quality materials with honest material execution, state-of-the-art technology and clever storage features – and inspired by classic, thoughtful American design, the interior of the all-new 200 sedan is unequaled in the segment.

The all-new 2015 Chrysler 200 sedan features interior trim and materials that are well-crafted, pleasing to the eye, soft to the touch and comprised of high-quality materials. Attention to detail is paramount and attractive components offer world-class levels of fit and finish.

The striking interior color and trim combinations were inspired by celebrated American locations, such as 5th Avenue in New York City, Sausalito, California and Detroit.

A clever design for the center console, made possible by the state-of-the-art full electronic gear shifting with rotary shift knob, is beautiful as well as functional. A unique pass-through storage feature that the driver and front-seat passenger can both access is enabled by the rotary-dial electronic shifting, a segment first. A clever opening at the rear of the pass-through area allows wires and cables from items stored in the pass-through area to route directly to the hidden power supply located in the covered center console. The center console features innovative sliding cup holders with smooth, furniture-like movement, allowing drivers and passengers to use the space in a way that best fits their needs.

The all-new Chrysler 200 is loaded with state-of-the-art, high-tech features and amenities that will surprise and delight customers. The available 7-inch LED, full-color, driver information display instrument cluster allows drivers to receive information and feedback in the format they prefer, similar to an iPhone. A glowing bezel surrounding the instrument cluster gives off a distinctive, pleasing blue glow. The available screens show information such as real-time fuel economy, turn-by-turn navigation, compass, outside temperature, speed, time and other useful information. The display is easy to use and easy-to-read, which allows drivers to keep their hands on the wheel and eyes on

<<*Chrysler 200 Continued*>>
the road.

The 2015 Chrysler 200 features the available award-winning Uconnect 8.4-inch touchscreen multimedia command center. It is attractive, intuitive and easy to use. Uconnect Access keeps drivers and passengers connected with helpful information such as fuel prices and movie listings. Voice-activated navigation, handsfree voice command and voice-to-text are some of the available features that allow drivers to keep their eyes on the road and hands on the wheel.

Attention to detail is prevalent throughout the all-new Chrysler 200, as no space was overlooked. Surprising details include a rendering of the City of Detroit skyline embossed on the rubber mat in the bottom of the pass-through storage of the center console.

Engineering Exquisite style meets exceptional performance. The all-new 2015 Chrysler 200 sedan leapfrogs expectations in the mid-size sedan segment for comfort, ride and handling. Engineered to provide premium driving dynamics, improved fuel economy estimated at 36 mpg highway, a quiet cabin and an enthusiastic driving experience, the all-new Chrysler 200 delivers exceptional ride and handling characteristics for all roads and weather conditions.

A segment-first standard nine-speed automatic transmission and world-class engines, including the 3.6-liter Pentastar V-6 engine with a best-in-class 295 horsepower, add up to an enjoyable, spirited driving experience in the all-new 2015 Chrysler 200. An available, innovative, state-of-the-art all-wheel-drive system includes a "sport" driving mode and delivers excellent performance in all driving conditions. With a world-class architecture and leading-edge technology, the new Chrysler 200 is engineered to exceed customer expectations in every category.

The all-new 2015 Chrysler 200 is the world's first mid-size sedan to feature a nine-speed automatic transmission, which comes standard. The benefits of the advanced-technology transmission are numerous, including an estimated highway fuel economy of 36 mpg when powered by the 2.4-liter MultiAir®2 Tigershark I-4 engine. The addition of more gear ratios reduces the frequency of speed changes associated with upshifting and downshifting – fluctuations that thwart fuel savings and undermine the driving experience. The high-tech transmission dispenses power smoothly for elevated refinement. Such performance is made possible because the ratio steps between its gears are smaller than those of other transmissions.

Two world-class engine choices power the all-new 2015 Chrysler 200 sedan. The proven, award-winning 3.6-liter Pentastar V-6 generates a best-in-class 295 horsepower as well as 262 lb.-ft. of torque.

The new Tigershark 2.4-liter MultiAir2 four-cylinder engine produces 184 horsepower, 173 lb.-ft. of torque and delivers excellent estimated fuel economy of 36 mpg highway. The new standard Tigershark engine, that powers the all-new 2015 Chrysler 200, delivers fuel economy improvements of 13 percent, horsepower improvements of 6 percent and torque improvements of 10 percent compared with the outgoing four-cylinder engine.

Beginning in the fourth quarter 2014, the 2.4-liter MultiAir2-powered Chrysler 200 models will include ESS technology. ESS increases fuel efficiency by shutting the engine off when the vehicle comes to a complete stop. Amenities (radio, gauges, heating or air conditioning, etc.) continue to operate, making the operation transparent to the driver. The engine restarts automatically when the driver releases the brake, allowing seamless acceleration.

<<*Chrysler 200 Continued*>>

The system monitors brake pressure and vehicle speed over time to determine appropriate engine shut off, preventing frequent on/off cycling in heavy stop-and-go traffic situations.

Due to additional high-use and electrical load demands placed on the starter and battery, components have been upgraded for heavy-duty operation on models equipped with the stop-start feature. This includes a high-durability starter housed in a stronger case, heavy-duty flywheel teeth and a more robust starter solenoid. During testing, the new starter was subjected to durability testing cycles more than 2.5 times that of a non-stop-start equipped unit – more than 300,000 on/off cycles. A new battery features 700 amps with absorbed glass mat (AGM) technology.

System voltage is continually monitored through a battery sensor. If the battery's charge is reduced, the vehicle will discontinue stop-start until the battery is recharged to an acceptable level.

Stop-start is activated automatically and requires no input from the driver. A system disable switch is located on the dash if the operator wishes to suspend the feature.

A new available sport mode in the 2015 200 provides a spirited driving experience by modulating steering, throttle and shifting inputs, electronic stability control, Adaptive Cruise Control Plus and all-wheel drive for a driving experience customers will look forward to. The all-new 2015 Chrysler 200 is the first Chrysler Group mid-size vehicle to offer paddle shifters, enhancing the driving experience for the driver who wants to experience all the car has to offer. The 2015 Chrysler 200 offers an available best-in-class all-wheel-drive system, which features a segment-first fully disconnecting rear axle that improves fuel economy by operating in front-wheel drive when all-wheel drive is not needed. The all-wheel-drive system features a one-speed power transfer unit (PTU) and uniquely disconnects and reconnects the rear axle – automatically and seamlessly – as needed and at any speed. The disconnecting rear axle disconnects at both the PTU and rear drive module, which improves fuel economy by reducing parasitic loss when all-wheel drive is not needed.

The exceptional balance of fun-to-drive dynamics, ride comfort and emergency handling is accomplished through the suspension bushing tuning and the exceptional body structure, including the front aluminum cradle, rear upper/under body structure reinforcement and superior suspension attachment stiffness. The all-new 2015 Chrysler 200 delivers world-class aerodynamics with a Cd of 0.27, aiding improved fuel economy, on-road dynamics, and reduced noise, vibration and harshness (NVH). The quiet cabin is another positive factor in the superior driving experience.

Safety and Security

The all-new 2015 Chrysler 200 is a showcase of advanced safety and security technology, offering a comprehensive array of driver warning and assist systems and state-of-the-art occupant restraints.

The 2015 200 offers the most available safety and security features in the segment with 60.

The new 2015 200 features multiple segment-exclusive features, which utilize sensing elements that leverage available ultrasonic, radar, camera and other technologies for a 360-degree view of the road. Segment-exclusive available features include:

Adaptive Cruise Control-Plus: under certain circumstances and without driver intervention, can bring the all-new 2015 Chrysler 200 to full stop

Full-speed Forward Collision Warning-Plus: a Chrysler Group first that provides autonomous braking and, under certain circumstances, slows or brings the vehicle to a full stop when a frontal collision appears imminent

ParkSense Parallel/Perpendicular Park Assist: uses ultrasonic sensors to guide the driver into parking spaces. The perpendicular park assist function is a segment first.

Also unique to the 2015 Chrysler 200 is the segment-exclusive standard electronic park brake with SafeHold, which secures the vehicle if the driver opens the door and unlatches the seat belt while forward or reverse gears are still engaged.

Other standard and available features include electronic stability control, electronic roll mitigation, four-wheel anti-lock disc brakes, ParkSense rear backup sensors, ParkView rear backup camera, Blind-spot Monitoring, Rear Cross Path Detection and LATCH child seat anchors. In addition, the all-new 200 is constructed with approximately 60 percent advanced-technology steel, which contributes to a strong safety cage and robust crashworthiness.
